ADRIFT

When a teenager in the mutant-hostile nation of Carnelia began to manifest an enormous sphere full of nightmare creatures, the NEW MUTANTS were eager to help. Unfortunately, as more of the team was subsumed by the orb's psychic control, the Carnelian army arrived, escalating the situation considerably. Now, within the sphere but untethered from the outside world, Armor's protective shielding has fallen...

‹I... Yes... free you.›
Armor! What the hell are you doing?!
You dropped your armor. We're sitting ducks in here!

Mondo, you need to do it...now!
I'm on it. I'm on it.

We don't have much time left before--

SKREEEEE
Doug...

If you got some sort of trick, Tubs, you better get to it.

NO. NO. NO. NO.

Wolfsbane! Boom-Boom!

I've lost them!

We have to--

Busy!

The local po-po ain't too interested in letting the black hole eat us anymore...

Looks like they want to finish the job themselves.

We are here to help. Please put your gun down.

‹Last warning! On the ground, hands behind your head or else we--*›

I cannae understand you.

*Translated from Russian.

He said that you have dog breath and maybe you should try to pop a mint once in a while.

He dinnae say that.

He did. He's *very* rude.

This one just shot at me!

BANG

See? They're *all* rude!

Tick, tick, tick...

BOOM

‹Why are you not filming?›

‹I--›

‹Our country, our ability to determine our own destiny, is under attack...›

‹...and all you can do is stand here slack-jawed?›

‹I am sorry, sir.›

‹Don't be sorry!›

‹Just do your job!›

‹Show *the world* what these monsters are *doing* to us!›

Okay... if I can just grab onto the remnants of the armor and...

Okay, okay, okay.

Should keep me safe from this... whatever this place is...until I can...

Crap.

A... little... help...?

Okay. This is fine.

The whole team is down, and I'm stuck with the clown.

But we can do this.

Wildside, you still with me?

Mmmmmh...

Just don't fall asleep.

I need you to do your reality-warping stuff, okay?

Just reach out and give her...

...good dreams.

Cripes.

‹What did they do?›

‹Keep filming.›

<NO...not again...>

<I'm sorry. I'm so sorry. I can't-->

Are you okay?

We're here to help.

<I don't... I don't understand?>

Yeah, I'm *fine!*

Thanks for asking.

Wildside...

No, no. It's cool. You just make sure the little girl who did all this doesn't have any boo-boos.

Who cares about the man who saved the day, right?

Check on the rest of the team. See who needs medical help.

I...I saw my mom. My brother. I...

That was the Nightmare Sphere. It was getting inside your head, trying to lure you in. You're okay now, Armor.

Felt so real.

Hey, Fire-Face. Whatever your name is.

Wake up.

I just saved your life.

Get off...

Karma, I got ye.

Feels like someone drove a train through my head.

Boom-Boom, I need you to translate.

Let her know that we're here to help.

I don't want her to think we're the bad guys. We don't want to risk triggering her powers again. We need to keep her calm and--

I got it. I got it.

You help the others.

‹Where... where am I? I tried...I tried not to fall asleep, I just--›

‹It is okay. We are here to help you.›

‹We have people...people who know...*um*... know how to help you control it.›

‹You are safe now.›

‹Arrest them!›

‹If any resist, then shoot them.›

‹We must show the world that Carnelia will not be pushed around by fake demonstrations of mutant might.›

They're not going to let us go without a fight.

Whatever that Nightmare Sphere did to us, I...

I'm spent...I can barely stand upright, let alone fight.

Same. My brain feels like it was split in two. I can't seem to take control of their minds. I don't have the energy.

Me too. I can't summon my powers.

Just keep behind us. We'll take these tools down and get you to the jets.
NO.
What do you mean no?
We're outnumbered.
We're *always* outnumbered.
True.
But we're surrounded by guns and they've got the vantage point.
We can take them down-- there's no question about it.
But there's no way we can walk out of this without sustaining casualties.
Tell them we surrender.
Like *hell* we do.
I don't like it either, but I'm not putting lives on the line.
Tell them we surrender, and we'll regroup and figure a way out of this. We always do.
Fine.
No.

There will be *no* surrender.

<These mutants came to help you in a time of need, and you dare point your weapons at them?>

<This insult will not soon be forgotten, Ivan Prokopovych.>

DOX

CARNELIAN CARNAGE CONTINUES

As first reported by DOX earlier today, a group of mutants have invaded Carnelia to perpetrate their mutant hoax of trying to help.

Through our message boards, we've been able to identify the mutants as: Mirage (A.K.A. Psyche), Karma, Boom-Boom (A.K.A. Boomer, Time Bomb, Meltdown, Firecracker), Wolfsbane, Cypher, Karma, Magma and Chamber.

Ivan Prokopovych, Prime Minister of Carnelia, has issued a warrant for the arrest of the trespassing mutants, but as of yet, they have not complied. No surprise there, given the illegal nature of their activity.

Stay tuned for updates.

COMMENTS:

MR. R1GHT NOW: Why are we puting up with this @#$%$#&%. The presidant needs to shut down Krakoa and put these monsters in jail.

FLYTRAP87: How many names has Boomer had? Why she keep changing it? What she tryin to hide?

DAVE405: Where the hell is Carnelia? Never heard of it. Smells like HOAX.

DNKMEMES9875: Follow me for the dankest memes.

K-ROCK452675: Don't arrest them! Shoot them!

DUBZILLA: This is boring. Who cares abt these nobodys. Where's Wolverine?

TRASKWUZRIGHT: This is desgusting. They say they r hear to help but this proves that they are all liars. They shold have been in jail already. We need a presidant who will stand up to these thugs.

The Next Day.

"A day of rest and everyone should be back to normal."

There is an anesthetic that I do not recognize still present in your bloodstream.

It is in a low enough quantity to not be fatal, but you will need to rest and drink plenty of fluids.

No probs. I've got a stash of--

Non-alcoholic fluids.

Water and juice only for the next week.

Sucks to be them.

You're going to feel queasy for the next day or so, but the more food you can take in, the better.

Thanks.

Hopefully, by examining your blood and this mystery anesthetic, we'll get some insight into what makes this new mutant--

Cosmar. Her name is Cosmar.

--we'll get some insight into what makes Cosmar tick.

Seems that her body produces it when she falls asleep, as though her powers seek to keep her sleeping.

All right, I've done my part.

Next time you sad sack, baby X-Men need a proper mutant to save your hides again...

...you know *where* to find me.

Armor...

...are you okay?

No.

I'm not.

I saw my family and...

I know it wasn't real, but...

I don't want to talk about it right now.

EXCERPT FROM THE DIARY OF TABITHA SMITH

Okay, so I guess I'm still doing this stupid thing. I swear, if you find this and I've started crimping pages or adding stamps or devoting a page to my vision board...please find me and put me out of my misery. Deal? (Also, if you are reading this and I'm still alive, know that I will find out and I'll come end you).

This welcome wagon for new mutants (actual new mutants, not caps New Mutants, like our team) is not going as well as everyone hoped. So far, we have welcomed a brand-new mutant to Krakoa -- her name is Cosmar and she's basically like Freddy Krueger as a satellite. Her dreams kind of eat the world around her and drag people in. So, yeah...I'm sure that'll come in useful in a pinch, right? Everyone knows that every good team has a leader, a powerhouse, a flyer, a psychic and a nightmare machine, right?

Where was I?

Right, so we brought in Cosmar. We brought in all those kids from Nova Roma (too many kids, no way I can remember their names). We brought in Beak, Angel and their kids. But...we lost Beak's parents. All those cartel members died (even if they had it coming). The security guards in Carnelia. Our average is not great. We need to figure a way to be better about it. Stealthier. I dunno.

Anyhow, this whole thing has got me bummed out. Thinking about going back down to Brazil, seeing if there are more of those mutant-hunting monsters that need blowing up. Boom-Boom needs to blow off a little steam.

Later,
Boom-Boom

Are you sure this'll work?

Forge seemed to think so, Maxime.

I know what it's like... to be like her.

I used to pull people's nightmares from their heads, use them as weapons against them.

I could barely control it sometimes.

With this girl, with Cosmar... every time she goes to sleep, she unleashes her own onto the world.

I heard... The others were talking and said...

They said that she killed her parents?

She can't control her powers, Manon.

What happened to her parents...

That wasn't her. She wasn't...

I...I know I'm not supposed to, but if it helps...I can change her memory...I can make it so she doesn't think--

No.

It would be easy for us to do that.

But we can't remake people. We can't change their pasts even if we think what we're doing will help them.

Okay?

Okay.

Her nightmares, they come from her anxieties. It's how her brain makes sense of what's happening to her.

So when you see that she's starting to have a nightmare, we need you to use your empath powers to help calm her, okay?

We can't change her history or what's happened to her, but we can at least make her feel a little more relaxed until we can fully understand what she's capable of.

Of course. What about Manon? What's her job then?

Manon, you make sure your brother doesn't fall asleep on the job.

Easy peasy.

We just want to help.

Are the two of you aware of this site... *DOX?*

I've heard of it. Anti-mutant site?

It's how I found you.

How I knew you were in Carnelia. How I knew you were in trouble.

It's also how the cartel found Glob and Armor in Pilger, Nebraska.

The site had been reporting appearances of Beak and Angel.

Published their home address.

If the cartel hadn't shown up...

...someone else eventually would have.

And they're not the *only* address exposed by this site.

Dozens of mutants' home addresses have been posted. Most have moved out of fear.

They're also monitoring movement at *most* of our gates.

Putting mutants at risk from those who've decided to target us.

Can they do that? Is that *legal?*

I'm afraid so.

Unless the info they publish is about someone who works for the government or is a juror, witness or informant, then there's no law against it.

No *human* law, maybe.

But there's no way I'm going to stand by while this mouth-breathing, basement-dwelling blogger exposes our own to harm.

I'm with Magik.

We gave these people what they wanted. We've set up our own society.

Yet it's not enough.

We need to do *something.*

Hey!

Been wanting to go after those *Dox* bullies since Pilger.

I'm in, but first...

...you've got to fuel up.
